**Marylynn Rushing:**

Concerns are traffic in the village of Barrington. If predicting 20 over the five that is more than a train an hour. There is a crossover between the commuter and freight. The track, by my property is in bad condition squeaking loudly and have been told by the rail company that is why. Concerned about the traffic in the village by the cross of the 2 rails. Another thing concerned about is if they will be carrying hazardous materials and if there is enough property to be safe. I would appreciate a call.
